Hi Calvin,

Attached are Cadmus' comments on CES's updated permit application (dated June 18, 2021).

We are almost there, although most of the attachments need a few minor changes. We don't think they will take much time for CES to implement.

The Operating Procedures (Attachment A) and the QASP are complete and attached, per your request.

As you'll see in our attached comments, we suggested some minor edits to the Emergency and Remedial Response Plan. None of these are critical, and if you want to move ahead on this attachment, we don't have concerns with that.

CES did not submit updated financial responsibility information.
